Description

This 2020 Ford Transit 290 Trend offers exceptionally low mileage for its age, having covered just 52,000 miles. This practical L2 H2 Euro 6 panel van is powered by an efficient 2.0L EcoBlue diesel engine and features a 2550 kg towing weight. The Trend trim level includes 15 inch steel wheels, front and rear parking aid with front fog lamps, and door mirrors with blind spot eliminators and integrated side indicators, which also incorporate Blind Spot Assistance. For connectivity, it benefits from Bluetooth functionality. The Ford Transit is renowned for its reliability and capability, and this particular example is no exception. Its Euro 6 compliant engine also means it has low CO2 emissions, making it a more environmentally conscious choice. The inclusion of front and rear parking sensors, along with the Blind Spot Information System, significantly enhances driver awareness and aids in manoeuvring, setting it apart from

many other vans in its class. This Transit is well equipped to handle a variety of professional needs.
